PROGRAMME

Monday – February 25, 2002

– Chairman Raimund Apfelbach –

9:00 **Rudolf Ahlswede, "General Theory of Information Transfer"**

10:00 **Alberto Apostolico, "Pattern Discovery and the Algorithmics of Surprise"**

11:00–11:30 *– Coffee Break –*

11:30 **Henry Brighton, "Modelling the Evolution of Linguistic Structure"**

12:15 **Kenny Smith, "Compositionality from Culture: the Role of Environment Structure and Learning Bias"**

13:00 –
14:30 *– Lunch –*

14:30 **James R. Hurford, "The Neural Basis of Predicate–Argument Structure"**

15:15 **Peter Harremoes, "Zipf's Law, Hyperbolic Distributions and Entropy Loss"**

16:00 –
16:30 *– Coffee Break –*

16:30 **Christian Deppe, "Information Theoretic Models in Language Evolution"**
